First Floating Dock - 1907

This Floating Dock which owed its inception to Messrs Ellis Greil & Co., was built on the Tyne by the famous Newcastle firm of Swan Hunter and Wigan Richardson and was towed out to Trinidad by Dutch tugs arriving on August 4, 1907.

Floating Dock IERE - 1966

This dock was built in 1965 and commissioned in 1966 at the Chaguaramas Dockyard Facility.

Floating Dock III - 2006

CL Marine Limited acquired Caribbean Dockyard & Engineering Services Limited (CDESL) and its group of Companies in July 2006.

CL Marine is a Major Port Facility, ideally located on the Western Coast of Trinidad and Tobago in the Western Hemisphere. The Facility has been in existence for over 100 years and situated on 26 acres, with excellent facilities, including a floating dry dock. We provide deep water berths; a well equipped, ship repair and new build with fabrication facilities, complete with inside and outside fabrication areas.

CL Marine has a prime waterfront location and provides a facility for domestic and international owners, who require their vessels to be dry docked in Trinidad & Tobago, including Marine Transportation Support Services and Supply Shore Base Logistics Services associated with the Energy sector.

Health, Safety, Security & Environment (HSSE)

Over the years, we have made major strides in the area of Health, Safety, Security and Environment (HSSE) and Quality establishing our shipyard that is committed to meeting challenges and needs of the ship owners and ship operators by competitive pricing, safety, timely deliverables and total customer satisfaction. We are committed to conducting our business in compliance with legislative requirements and ensuring that the industry's highest HSSE standards are practised in all our work processes. We actively seek and use our customer's feedback to enhance continuous improvement in our HSSE practices and quality standard.

Besides Health, Safety and Environmental policies, security is also an important aspect of our business deliverables. The achievement of early ISPS certification demonstrates the shipyard's security preparedness and pro-action. Effective safeguards against security threats and risks to customers, employees, property, sensitive information and other assets, are in place to ensure timely response and business continuity.
