The yard

From normal steel or mechanical work, to sophisticated conversion projects, at ASTICAN you will find a professional team willing to fulfil any requirement.

Our modern drydocking system, together with exceptional climatic conditions, allows us to work comfortably on any type of vessel.

We drydock about than 200 vessels every year and we can attend to your requirements at very short notice.

Seven ample docking positions fully serviced

Fully equipped workshops

Lifting platform 175 mts long 30 mts wide, up to 10,000 tons net lifting capacity (approx. 36,000 DWT)

Own repair berth with drafts from 8 to 12 mts

The quality

Our commitment to quality and customer satisfaction, both with time and price, is our first target.
